

Henry the Hand Foundation

Adopt-A-School

Corporate/Foundation Partnerships

About

The Henry the Hand Foundation Adopt-A-School Partnership is an initiative to match corporate or community sponsors with a school to provide a comprehensive and effective infection prevention and hand hygiene awareness program in a Tool Kit. The Program is based on the 4 Principles of Hand Awareness, which have been endorsed by the American Medical Association and the American Academy of Family Physicians. It is designed in a lesson plan curriculum, is multimedia and multi-sensory, and is based on behavior modification and repetition. All the necessary educational tools are packaged and presented in a self-explanatory way so that anyone can implement the Program in their school.

Program Benefits

The Program is implemented by a school “Champion,” and the provided materials and curriculum create a “culture of safety” around hand hygiene behavior. The school’s students and staff subsequently benefit from enhanced hand hygiene, respiratory etiquette, and cross contamination awareness (surface to T Zone inoculation prevention), which will decrease infection rates, reduce sick days, and promote family and community health . The sponsor benefits from the local positive publicity of their investment in the health of their community and subsequent increased awareness of their brand. Henry the Hand also features all sponsors on our E-News communications and social media handles.

What your Sponsorship Provides

- 1 School Tool Kit per 300 students, which includes activity pages, stickers, bookmarks, posters, Glo germ demonstration with LED light, and other educational and reinforcement tools
- Access to educational videos and songs, including a pre-recorded Classroom Presentation
- Laminated Classroom Handwashing Schedules for each classroom
- Instructional Handwashing Repositionable Vinyl Decals for each classroom and restroom
- Coaching for implementation and infection prevention strategies from our team
- Health Shields (full face shields) for all students and staff. These come in a standard size and a pediatric size made for students in kindergarten through second grade.
